PENNSYLVANIA ELECTION FRAUDS. Startling Corruption ... Philade, his Report of a Special Examiner.

PHILADELPHIA, NOV. 4, 1872. PHILADELPHIA, acv. 4, 1872.

A most determined investigation into the modus operands adopted by the election return judges during the late state elections has developed some startling facts. It is a matter of common report both in Philadelphia and New York that the reputed majorities for the gubernatorial and other candidates were far in excess of the actual vote; yet the mere partisan among the republicans have the assurance to claim their majorities to have been lawful votes. Witness the following affidavit of Albert L. Williams, a young expert, appointed by the Court to examine election returns in fifteen he Court to examine election returns in fifteen vards. If this will not convince your readers of

the shameless manner in which these returns have been "repeated" nothing will;

Albert I. Williams, being duly sworn according to law, heposes and says;—That he is twenty-three years of age, and resides at No. 33 Mclivaine street, Philadelphia, he had to be a camination of the returns of the udges of election, on the 8th inst., for each lividen of the wards in said city, and made copies derected that he wards in said city, and made copies thereof. That in said returns, now of record in said court, there appear numerous crasures, alterations and hanges of sigures in the return of the votes of some of he candidates, and other irregularities of the following haracter, to wit:—

That the above alterations are sometimes made by merely changing the figures, and sometimes by crearers, and are generally apparent at a moment's glance. Only those which are beyond all doubt have been herein above mentioned. The changes seem to be, in a great measure, confined to the Gubernatorial candidates, the others receiving the regular party vole. That some of the creating the hourly lists of title divisions are missing, and some of the division returns appear to be attered upon every candidate, but the correct return cannot be accurately ascertained, and is, therefore, omitted. The changes in the returns as aforesaid amount to a difference of 3,310 votes as aforesaid amount to a difference of 3,310 votes as aforesaid.

[From the Philadelphia Press, Nov. 4.]

When so large a majority was declared for the republican State ticket on the 5th of October we stated that we did not regard the result as frandulent. Our judgment rested on the belief that General Grant's prestige and the demoralization of the democracy in consequence of the surrender at Baltimore had done the work; but every hour's subsequent experience has proved a system of frauds unparalleled in the records of elections in this country. The last evidence is that revealed in the Court of Common Pleas on Saturday last, reported at length in our local department. It does not depend upon newspaper surmises, but is the result of an examination made on the authority of Judge Peirce, of the same Court, by a member of the Municipal Reform Association (Mr. Albert Williams), whose affidavit was read by the eminent counsel of that association, Mr. E. Spencer Miller, before His Honor Judge Fintetter. We need only refer our readers to this painful and extraordinary disclosure, not take less painful because evidently perpetrated by republican election officers, and not the less extraordinary because, in our opinion, wholly unnecessary, except to save from defeat the objectionable men on our State ticket. Judge Finietter made a very significant remark on this startling disclosure and followed it by an order on Prothonotary Loughridge, which must lead to still lurther evidences of the deeply planned conspiracy of the 8th of October last. The light thrown on this conspiracy on Saturday shows a state of afairs so disgraceful as to call a blush of shame to the cheek of every honest citizen.

The affidavit read before Judge Finletter shows

ber last. The light thröwn on this conspiracy on saturday shows a state of affairs so disgraceful as to call a blush of shame to the cheek of every honest citizen.

The affidavit read before Judge Finletter shows that various alterations, crassress and changes of the envelopes containing the hourly lists of the divisions are missing; that many of the returns cannot be found, and that numerous of them are not signed by the proper officers required by law to certify to their correctness. The exposures of frands perpetrated are confined to only thirty-five divisions of twelve wards. The plan was systematic, and it is safe to assert that there were numerous cases as yet undiscovered of alteration of the vote in the other 324 divisions. The divisions in which the frauds were perpetrated include about one-tenth of the vote of the city. If they were equal in extent in only one-half of the others (and fraud in the great majority of them is not only possible, but probable), the vote of Philadelphia was falsified at least lifteen thousand on the evening of the 8th of October by the election officers alone. This is exclusive of the repeating, personating and ballot box stuffing by the tools of the ring on the same day. We now verily believe that an examination of the entire returns and a contest in which the frauds committed, but not apparent upon them, could be exposed, would put the stamp of guilt upon at least five hundred men in Philadelphia, and show that Charles R. Buckalew carried Philadelphia by a clear and ample majority. It is to be hoped that such an examination will be had and that the man who sold the honor of the republican party and betrayed the Commonwealth will had anothed the man who sold the honor of the republican party and betrayed the Commonwealth will not flaunt the evidences of its guilt in the faces of our people much longer. This community, patient and long suffering as it is, has the virtue and manbood not to connive at and endorse a change to be made in our laws soon, which, if it will not flau
